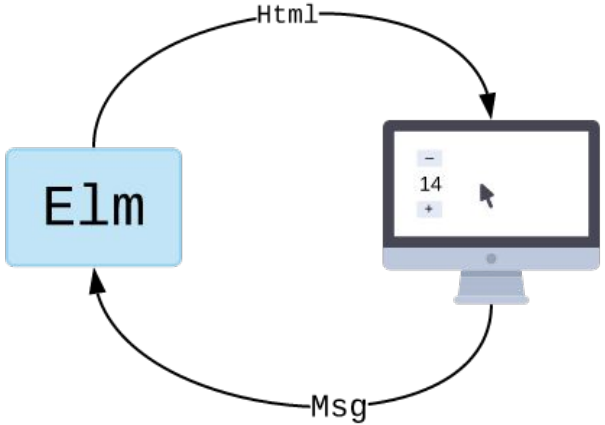
Bubble Tea

The fun, functional and stateful way
to build terminal apps

The Elm Architecture



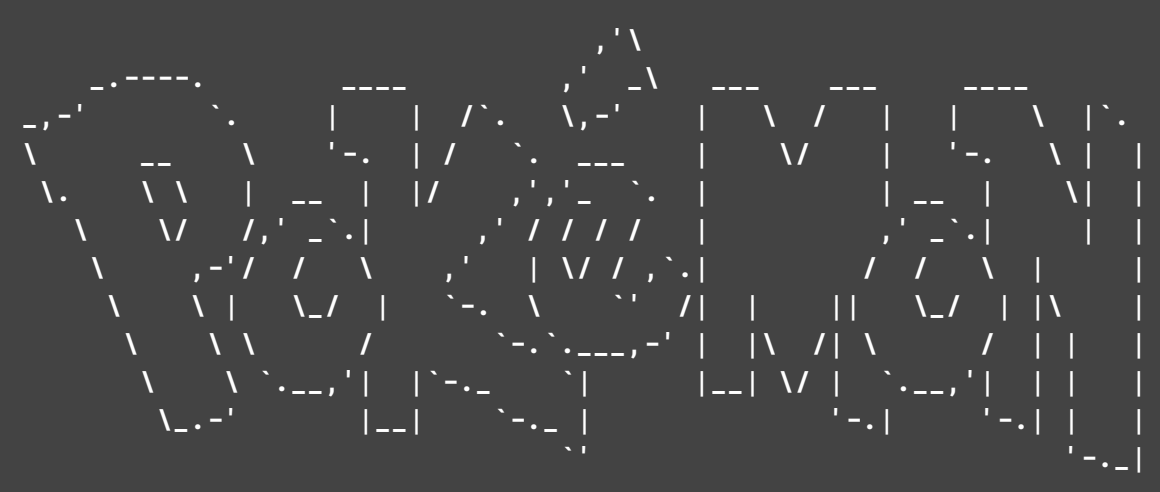
Model

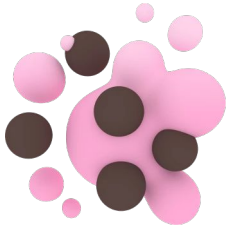
View

Update

```
type Model interface {
        Init()
        Update(Msg) Model
        View() string
}
```

Gotta catch 'em all!





Bubbles

Some components for Bubble Tea applications

```
type Model interface {
        Init() Cmd
        Update(Msg) (Model, Cmd)
        View() string
}
```
